Dear Parents/Guardians,

Rosehill Secondary is looking forward to another great year of teaching and learning and would like to advise you of its voluntary financial contributions for 2026.

Schools provide students with free instruction to fulfil the standard curriculum requirements, and we want to assure you that all contributions are voluntary. Nevertheless, the ongoing support of our families ensures that our school can offer the best possible education and support for our students.

At Rosehill Secondary College, we design and develop teaching and learning programs drawing on the best educational knowledge and practices and strive to offer broad and enriched opportunities to students that are above and beyond what is required in the standard curriculum and what is provided for by Government Funding.

The Rosehill Secondary College School Council makes every effort to keep the cost of items and activities to a minimum and affordable for all its families. However, we do rely on parent contributions to assist us in meeting our budgetary requirements, as well as the diverse needs of our students. This has made a huge difference in our school allowing us the ability to offer your child a wide range of quality academic programs and specific subject materials and equipment for English, Mathematics, Science, Visual Arts/Performing Arts, Languages, Humanities, Technology, and Health and Physical Education.

Some of the terrific co-curricular programs we offer at Rosehill are because of the additional contributions made by our families. These include school productions, concerts, art shows, sports events, incursions, excursions, well-being programs, school-wide positive behaviours, Respectful Relationships, and school-based counselling and support.

Within our school, this support has allowed us to continue to provide a differentiated curriculum and has ensured the College has the materials and facilities to run the programs successfully and that the provision of student wellbeing and support programs, major and minor upgrades to facilities, grounds, the renewal and enhancement of classroom and digital technology, is made available for the benefit and engagement of all our students.

We would like to thank parents for their continued support and commitment to contribute, which directly benefits students and results in improved achievement outcomes, engagement in learning and well-being.

For further information on the Department's Parent Payments Policy please see a one-page overview attached.

Yours sincerely,

Arthur Soumalias
